The
LODGE
OF
LIGHT

T=3

THE THIRD COSMIC PRINCIPLE IN OUR STUDY OF THE TWELVE DIVINE IDEAS IS TO BE FOUND in the Solar-Plexus, the Center of Discrimination insofar as the development of the Personality is concerned. Sight is the physical manifestation of the mystic senses which move through our Spinal System.

The physical area corresponding to the Solar-Plexus is that vast land high up in the tablelands of the Hymalyan mountains, bordering the Desert of Gobi. In this wilderness is to be found the Original Vibration which was established by those Lords of Light Who came to this globe from Their home on the planet Venus. This is the Magic White Isle which figures so prominently in all the ancient traditions and scriptures of the early religions.

The development of the Solar-Plexus Personality, or Individualized Consciousness, was the cause of the so-called war in heaven--between the two Archangels, Lucifer and Michael. Stated in another way, it was a contest between the Universal Consciousness of The Abstract and the Individual Awareness of the Concrete aspects of Cosmic Existence. It was a struggle between the General and the Specific; the Universal and the Personal, the Macrocosm and the Microcosm, or Man and his God. (A volume would probably be required to completely explain this Cosmic Cycle in which the Children of God struggle to develop the Universal Consciousness of the Infinite Father-in-Heaven and still retain their own personal individualities.)

The Principle of Discrimination, of Choice, of Free-Will is centered in every human body behind the huge nerve-ganglia called the Solar-Plexus. And over this Principle of Personality (endowed with the Divine Idea of Discrimination) the Forces of Saturn and the Forces of the Sun are still struggling. Russia, which represents in toto the Saturnian Consciousness of Crystallization (and therefore death) is struggling with America, which represents the Solar Principle of Illumination. The prize of this struggle is the Mass-Consciousness of Mankind, control and domination of the minds of the human egos living on earth.

The struggle between Russian Communism and American Democracy, when seen from the Inner standpoint of Universal Law, becomes the struggle between Saturn and the Sun. (Saturn, according to the wonderful Grecian legends was the son of Uranus, and thus has many of his fathers qualities. It is interesting and very revealing to know that Russian Communism is characteristic of the Uranian Ray which is destined to bring to perfection the Golden Age of Aquarius.)

There was a time when all Humanity existed in a state of general communism in which there was but one standard of existence. It was this very condition that the dynamic Rays of Mars broke up when Humanity was said to be existing in the Garden of Eden---or a state of ignorant bliss and peaceful unconsciousness of Self. The attempt of the Saturnian Rays moving through Russian Communism to reduce all Mankind once more to a state of single standards, to a condition of universal slavery and personal unconsciousness is, therefore, a retrogression. It is a violation of the eternal Law of Progress from the General to the Specific, from the Impersonal to the Personal, the Universal to the Individual. It will fail.

* * * * *

THE ORIENTAL WORLD IS THOROUGHLY CONVERSANT WITH THE EXISTENCE OF AN ANCIENT CITY which is known by various names in the different nations. It is known to many Students of the West as SHAMBALLA, or The City of Light. There have been certain individuals and groups from time to time making various claims about being associated with Shamballa or having some unusual influence which would permit their own members to visit this Sacred City in the physical body. Such claims are totally fraudulent and dishonest for the simple reason that Shamballa does not exist as a physical city. A group in Denver make the amazing statement that Shamballa is located seventy-five miles underground---and is to be reached by a miraculous elevator which descend into the very bowels of the globe!

Shamballa is intimately connected with the Mars Ray of Personality or Discrimination and Choice. Shamballa can indeed be visited---but never in the flesh or physical body. Som-Bhal-La means the High Point or Pass which leads us into the secret Temple of the Great White Isle from which constantly radiate streams of Cosmic Consciousness stamped or charged with the Faculty of Will or Choice.

This Magic White Isle is no more visible to the physical sight than is Shamballa. It does exist, however, in the Higher Planes of the Astral World as a positive and entirely substantial area of solid matter. But it is matter of the higher vibrations; substance which does not register upon our dense physical organs of being. The true nature of Shamballa and the White Isle, and all of the Sacred Temples for that matter, can not be properly explained in literature which is to be given forth indiscriminately to the general public. The true significance of these Cosmic Matters can only be hinted at, suggested, and expressed in veiled terms. To write out in so many words, available to anyone who cares to read them, to write out the Spiritual and Mystical Teachings which clearly reveal the extraordinary nature of these Ancient Temples, and Their Brotherhoods, would simply invite public ridicule and unbelief. For these are matters so Occult and Magical no one but the trained and initiated Student could be expected to understand and believe us.

However, for those who feel they can accept these amazing Laws of the Universal Consciousness as It moves through the physical globe of our Earth-world, we will explain that the Hours of Radiation from the Ancient Temple of Mars, located near Tibet, are from SIX TO NINE in the morning. At this time those who properly belong to the Mars Temple will be able to charge the Cosmic Principle of Discrimination and Free-Choice into their worlds and personal affairs very intensely.

Lucifer, or Lux-I-Fer, means The Bringer of Light, also the Bringer of Iron. In the Biblical account Lucifer, regarded as the Devil, is said to have appeared in the likeness of a serpent, promising infinite knowledge to the original man and woman. Most Students of the Mystical Teachings in the Bible know that the central core of the Spine is presented as a serpentine force, or magnetism or fire. Every truly world-religion has presented this same idea. Two other fires or forces are given as companions to the great central-light. The Hindus terms them the Ida and the Pingala, or the negative and positive, the feminine and masculine principles.

In the beginning of the Human Race, these two Principles of Male and Female Consciousness existed together as one within the complete control of the Central Fire, or Universal Consciousness, of the Spinal System (The Sushumna). They did not know themselves as separate Ideas, or Egos. They had no knowledge of anything different from themselves. At this period our bodies were both masculine and feminine, bisexual, and round or spherical in shape, with the Spinal Column also in the form of a circle---rather than the straight vertical nature it has today. In this state of bisexuality we had no free-will, no choice, no discrimination since we were aware of nothing but the deep sleep of peace and unconsciousness similar to the trance state of hypnotism or mediumship. Lucifer awakened us to ourselves. From that hour we have been struggling to learn and master our Cosmic Natures.

THE FIRST PERSONALIZED CONSCIOUSNESS EXPERIENCED BY NASCENT HUMANITY WAS THAT OF the tribe or clan to which they belonged. In order to make this a definite and positive feature of each individualizing Soul, the crystallizing Rays of Saturn were projected into their Etheric Body so that the qualities of Jupiter, the Race-Idea, would be heavily stamped with the limiting action of the Root Chakra. This stamping of the Etheric Body produced in the consciousness of the members of a race or nation the same basic beliefs, ideas and traditions. Thus the Group-Soul or Mind of the tribe had no difficulty in controlling and dominating His people. The many tribes of the Bible are excellent examples of this over-shadowing of a Tribal Deity. Eventually it became necessary to blend and intermix the many small colonies of human beings in order to expand their personal awareness of the world and its many features. Larger nations were thus evolved from the many smaller ones by uniting them together under one all-powerful & sovereign. This was the beginning of the principle of the monarch or emperor, having many kings and minor rulers under his control.

As the ages have passed the thousands of small tribes have gradually become integrated into a small collection of very large nations. These few nations, rather than losing their consciousness of nationalism and the patriotic spirit have become even more intensely nationalistic and exclusive in their attitude to the rest of the kingdoms of the world. Thus again has the crystallizing Ray of Saturn proved to be far more effective in its impact upon human consciousness than that of the more benign Jupiterian Vibration.

With the introduction of the Mars Ray of Discrimination and Choice a new element began to work its magic upon the crystallized national consciousness of Mankind. The original action of the Mars Ray was to separate the consciousness of early Humanity into its two aspects of positive and receptive magnetism, male-female. The dynamic crimson Rays of Mars manifest through the blood-stream of the human body; and in a truly magical fashion hold the Ego or Spiritual Consciousness within the flesh body. The blood has been called a "Magical Potion" because of its extremely Occult character. Blood rites have figured prominently in all of religions of Mankind. Certainly we must admit that Christianity, as the Bible presents it, is essentially founded on the sacred rite of blood. And Saturn, or the Devil, who made blood possible is an extremely prominent character in the experience of most of the Biblical personalities! Blood is a most mystic essence. The idea of shedding one's blood for one's country is too well known for comment; and the alert Student may begin to grasp something of the universal impulse behind the terrible slaughter of human bodies which has occurred down thru history. The insane butchery of such inhuman characters as Genghis Khan, Timur the Lame, Attila the Hun, etc., takes on a different significance when viewed in the Light of the Ancient Teachings. For while it may be extremely revolting to recall such cruel periods, evolved as we now are to greater heights of Divine Consciousness, these ancient times were periods of deep stagnation and an almost trance-like stupefaction during which the millions of human egos were hardly consciousness of anything except the fact that they belonged to this or that tribe. In order to deepen their senses, to intensify their personal awareness of Life, it was necessary to compel them to endure great suffering and pain---not only as a tribe, but personally and separately.

Added to this very necessary feature of human development was the Sacred Rite of the shedding of blood---and returning back to the Great Soul of the Earth (from Whom it had originally come, a measure of our blood STAMPED WITH OUR OWN PERSONAL IDENTITY. The Christ came two thousand years to do this very thing, but in a far more exalted and intelligent fashion than we can understand.

* * * * *

PERHAPS NO ONE COULD PROPERLY ESTIMATE THE AMOUNT OF THIS MAGNETIC FLUID CALLED Blood which has been poured into the surface of the Earth down through the ages. The amount of magnetism from the animal bodies which resides within the blood would in itself be tremendous. Sooner or later the Student must come to that place in his understanding where he realizes that his body, his flesh body, is little else than a collection of chemical compounds. It has been said that the human body contains every known chemical element, and every one yet to be found by the scientists in their laboratories. The oft repeated joke of the net worth of the human body in terms of chemical value being about one dollar contains vast possibilities for meditation.

Hence the idea of the Earth-Spirit being required to absorb quantities of the chemical compound called our blood should not be too offensive. The only way in which this transfusion can be achieved, according to the Ancient Teachings, is in the direct and painful manner accompanying war.

The Cosmic Chakra controlling this feature of the blood and its magnetism is the Solar-Plexus. During the night when our flesh forms are at rest, the greater part of the blood is gathered in what doctors call the Splasnic Pool, directly behind the stomach and in touch with the huge nerve-ganglia, the Solar-Plexus. There the blood is gently charged during the night by the dynamic currents of Cosmic Energy which radiate from the Mars Temple in the Gobi Desert. The great wisdom of receiving the Mars Radiation between the hours of six and nine in the morning, when we are making our first contacts with the outside world is obvious.

The mystical remarks of Jesus and other World-Teachers in regard to the drinking of their blood is not to be taken in a literal fashion. These great Teachers were referring to the magnetic potencies within the blood stream which held the Ego or Spirit within the flesh-form. Unless one did partake of the Spirit of the Christ one could never achieve the perfection which rests in that Spirit. This partaking, however, is a spiritual process which manifests from within.

Habits, tradition, ideas and national customs manifest through the peculiar magnetic influences of the Blood. "It is in his blood" is so common a statement we do not pause to consider its actual significance. The mixing of Blood in the marriage rites and religious ceremonies of many nations emphasizes the Great Occult Truth of the Nature of the Blood and the Mars Rays which move through it. The fantastic things which the pioneers in radionics are achieving with blood are almost beyond belief. Incontrovertible proof of a magnetic rapport between a specimen of blood located miles from the human body in which it originally flowed and that flesh form has been achieved by modern scientific machines. The treating of a specimen of blood, deposited in a doctors laboratory, to heal the human body, many miles from the laboratory is rather a fantastic thing. This is nevertheless an accomplished fact which hundreds of people will gladly prove by testifying to the healings they have received by this method.

If a fragment of a stone image can be read by a trained psychic, psychometrized, or "sensed", even though that fragment is thousands of years old, then it is not too difficult to comprehend how such a subtle magnetism would be even more readily contacted in the specimens of human blood and the living human body from which it was originally taken. Scientists tell us that from a single drop of blood they can reconstruct an accurate picture of the completed human body from which it came. In view of such miracles as these the Student should no longer pause in his study of the blood, but go forward confidently and certainly in the Ancient Knowledge which is being presented to him.

* * * * *

MOUNT EVEREST IN THE HYMALAYAS IS CONSIDERED THE HIGHEST POINT OF LAND ABOVE THE sea. In recent years there have come frequent rumors of the existence of a still higher mountain in the same vicinity. The natives call this mountain, one they regard as especially sacred, Amni Machin--and declare it is the home of the Gods. No one has as yet succeeded in climbing to the top of Mount Everest, and no one has even seen Amni Machin until last year an intrepid American approached its snow-covered foothills. This is extremely interesting in view of the ancient prophecy widely circulated in the Orient to the effect that when a Pheling (a man of the white race) penetrated the sacred veil (of mist) and sees the Holy Peak, it is the final signal of the Coming of the Great Prince, Maitrea, or the World-Teacher. This, in view of many other fulfilled prophecies, lends great significance to the universal anticipation of the Coming of the Aquarian Saviour.

One who is unfamiliar with the Orient, either by personal contact or through the more comfortable highways of travel-books, can possibly understand the constant expectation of this Great Advent which fills the minds of the Oriental peoples. Certainly the belief of almost one half of Humanity in the Coming of the Great Teacher and Leader can hardly be dismissed as visionary and absurd. There is a dynamic power in the thought processes of so vast a collection of human beings which may, of itself, FORCE the Coming of this Great Ideal-Man.

The Orientals are Solar-Plexus people. And the Solar-Plexus is the center of the Personality. The Orientals do not possess Personality in the sense that we of the West have achieved it. But through the Coming of The Leader, and the Great Crusade which He is to wield (according to the Orientals) a vast extension of their personality will be achieved. Rather than a matter of temporary supremacy over various tribes making up their Oriental kingdoms increasing their awareness of Personality, the Orientals hope to join all their uncounted millions together as one great nation---and, with the help of The Leader, overwhelm the white race.

The Asiatic Consciousness is the crystallized Ideal of extremely ancient race-patterns. Rather than being composed (as it was formerly) of many Oriental nations struggling against each other for temporary supremacy and personal power, Asia is now fused together as one vast nation. This blending has come about as the result of the exploitation and abuse which the white races have imposed upon the Asiatics. Hatred is as vital and vigorous a power as love. Asia's hate of America is the most terrible danger that confronts us. It is also by far the greatest danger the entire planet and its two thousand million human egos face in the remaining years of this twentieth century.

The coming of the Oriental Napoleon is mentioned in countless prophecies. It is familiar to every Student of the art of fore-knowing. But how constantly, completely and intensely the Asiatic millions are preparing for this Great Event is something few people care to realize or will permit themselves to believe. Great sacrifices are being made by the nameless hordes of Asiatics in their endeavor to lay aside enough wealth to equip their armies when the Great Leader comes. Precious heirlooms, keepsakes, family jewelry, etc., are being cached in secret storehouses throughout the Oriental lands. Fathers tell their sons that they are highly favored by God (Allah, Brahma, Tao, etc.) in having the opportunity to be amongst the great company which will gather at the call of The Leader. This is a campaign which has none of the hectic frenzy of modern war, or the furious excitement of holy wars of the past. There is a deadly quiet calm in the preparations which the millions of Moslems, Hindus, Chinese, Mongols, etc., are making for this gigantic attack upon the white race before this century is ended. And the Asiatics make no secret of their hopes and their intentions. When the white men have exhausted themselves fighting each other, then will we attack for Allah. This is the complete conviction of the hordes of ancient Asia and her psychic entities.

IT IS DIFFICULT FOR MOST PEOPLE TO BELIEVE THAT THERE IS ANY REAL DANGER CONFRONT-us than that which comes from Russian Communism. It is accurate enough to say that there is no other danger---provided one really understands the secret nature of Russian Communism. Russian Communism is Oriental in its inception, it is Asiatic in its concepts; it is entirely Eastern in its philosophy of destruction. In the person of Josef Stalin we have the reincarnation of Genghis Khan, the Oriental tyrant who paved the streets of his cities with the skulls of the millions of innocent women and children, old people and invalids who fell under the terrible attacks of his insane hordes.

Communism, as we know it today, is an incidental feature in the vast Asiatic program to engulf the globe when we have exhausted ourselves with internal strife. The creatures in the Kremlin at Moscow are fully alive to the true nature of the world-wide struggle which is daily growing more critical. These men do not have the good of Russia and her people in their plans---else how could they imprison twenty-five millions of their Russian fellowmen in slave camps from which return is impossible?

To those who see no connection between Stalinism and the Asiatic Crusade, we offer the remarkable article in the August issue of American Astrology, on page three. This article tells of the secret clause in the Soviet-Chinese Pact of Feb. 14, 1950 which provided that after the death of Stalin, Mao Tse-Tung would take over direction of the Cominform and be officially recognized as Stalin's heir. This, of course, implies a long range plan to eventually shift the focal point of World Communism to Peiping. (Mao is the Communistic Dictator of all China.)

Another aspect of the hidden plot of the Solar-Plexic nations to dominate all the earth is to be found in a race of people who are first and foremost Asiatics. Yet these people have penetrated every nation of the globe and for the most part disguised the indisputable fact that they spring from Asiatic and Oriental streams of consciousness as surely as do the Chinese, Hindus, Japs, Persians, etc. This is the strange race of Jewish entities which has no equal in history for the way in which they have clung to their age-old habits, patterns and beliefs.

This ancient race of unhappy people is understood only by the Student of the Wisdom Teachings. And while it may seem entirely inconsistent with the Jewish tradition of Jehovah, it is also an indisputable fact that many important posts in the Communist hierarchy are held by Jewish men and women. At this point we ask the Student to understand that we are not endeavoring to stir up the poisonous vapors of anti-Semitism. We are not concerned with the Jewish people as such. But we are vitally concerned with the hidden forces of Astral Power behind them. The Christ came to the Jewish people---who permitted their authorities to reject Him. The Orientals have always rejected the Christ, even the Hindus who at one time, had the whole of The Divine Law within their Temples of Light.

Perhaps the Student may now be able to put these many facts together and thus, for the first time, properly understand them---not in the light of their outer significance, but in the full and revealing glare of the Eternal Pattern of the World-Soul. Reduced to its fundamentals, its ultimate truth, the great struggle Mankind is now waging is not against any nation, any political theory, any human dictator. It is a struggle of the Divine-Consciousness against the crystallized concepts of nationalistic personality; the struggle of Western Illumination against Eastern animalism---the animalistic personality of the Solar-Plexus which is seeking to cast Humanity back into the ancient and out-moded patterns of the Group-Soul. And this is the very thing from which Archangel Lucifer rescued Mankind.
